So, that wasn't one of the examples where you called them and asked for clarification? A. I believe at that time they were inquiring as to what it was. We offered to come in and explain it to them. Q. Yes, sir. They called Walgreens and asked you all to come explain something? A. I don't know that they called us, but I think the reference was made that they wanted to understand more about it. Q. They contacted Walgreens, they asked Walgreens to appear at one of their meetings. This wasn't where you call and just asked for clarification, right? A. Can you provide me some other specific instances? A. Sure. I've appeared before the Arizona State Board of Pharmacy with requests for variance to waivers, with around process, those kind of things. Q. When you say "variance to waivers," can you give me a little more understanding of what you're referencing? A. State Boards obviously have regulations, and one of the things as technology and other things improve, sometimes regulations don't keep up with those changes.

- 6 and Schedule III and, more specifically, opiates?
 - A. Not that I recall.
- 8 Q. The other category was the DEA?
- 9 A. Yes.

7

- Q. Will you walk me through what -- I'm not
- 11 talking letters back and forth. I'm asking for

- 14 Walgreens.
- 15 A. Well, the DEA through NABP had agreed to 16 several meetings that were held with a consortium
- of retailers, and so I was part of those meetings.
- 18 Q. That was actually a committee, correct,
- 19 sir?

- A. No, incorrect.
- Q. The committee with the DEA -- the DEA

- Q. How many meetings do you think there were?
- 3 A. I think there were maybe four or five 4 meetings.
 - Q. Were there -- did you take notes on those meetings or any memorialization of what occurred during those meetings?
 - A. I'm not sure if NABP took notes on it.
 I mean, we would have taken notes probably specific towards --
- Q. And I'm sorry. What I asked you was did 12 you take notes?
- A. Not that I recall. I mean, it's possible I did, but I don't recall.
- Q. Is it your general practice during
 meetings you don't take any notes during meetings?
 You just --
- A. When something is noteworthy I take a note on it.
- Q. So, there was nothing noteworthy that occurred during four meetings with the NABP that you recall taking any notes or keeping a file on?
 - A. I'm sure I took notes. I don't -- you know, I don't recall what the notes would have been

- A. For NACDS I co-chaired it. I referred to NABP, which I did not co-chair. That was a consortium meeting.
 - Q. All right. So, while we're going through these DEA communications, let's go ahead and include all the different committees and task forces and things you served on. Okay.
 - So, that was NABP, and you said that was a series of meetings. A series of meetings regarding what?
 - A. Well, through -- through NABP, they had requested or brokered or arranged for a meeting of many of the different pharmacy retailers along with representatives from the DEA to discuss the challenges around the opioid issues.

And Walgreens --

- Q. What time frame? I'm sorry.
- A. Walgreens participated along with other retailers.
- Q. Sure. And what time frame was this?
- A. Roughly speaking, probably 2012, 2013,
- maybe '14. I don't know the specific time frame,
- but there were a series of meetings.

- about or what the purpose of the specific notewould have been but...
- Q. Do you have a regular practice when you take notes, you come back to the office and you ask somebody to put those in a file for you so you can refer to them until your next meeting with the NABP?
 - A. No, that would not be a regular practice of mine.
 - Q. So, you wouldn't store anything so the next time you go to the meeting with the NABP you would have a way to refresh your recollection of what occurred at the last meeting, what the action items were, nothing like that?
 - A. Well, these particular meetings were also attended by with our attorneys. So, our attorney would have been the one taking most of the notes.
 - Q. Right. And -- but we already got back to the fact that you might have taken some notes.
- 21 A. Yeah
- Q. I appreciate the fact that your counsel took notes, but what I'm asking about is your notes.

- 11 MR. STOFFELMAYR: Objection to the form.
- 12 BY THE WITNESS:
- 13 A. That -- that wasn't the discussion. The
- 14 discussion was around process.
- 15 BY MR. MOUGEY:
- 16 Q. Could you -- could anyone point you to 17 any process and evidence of that process that there
- 18 was due diligence being performed on suspicious 19 orders that Walgreens was providing to the DEA?
- 20 A. The process that was described was the 21 reporting process to the DEA.
- 22 Q. Yes, sir. And no one ever described any
- 23 process to you that there was due diligence being
- 24 performed on orders identified as suspicious by
 - Page 211
 - Walgreens before they were shipped, correct, sir?
- 2 A. No one ever described to me that
- 3 process.

- Q. Were you told that there was no due
- 5 diligence being performed on orders that were
- identified as suspicious and reported to the DEA? б
- 7 A. The discussion, again, was around the 8 process of reporting.
- 9 Q. I understand. But were you told that
- 10 there was no process for performing due diligence
- 11 on orders that were identified by Walgreens and
- 12 then reported to the DEA?
- MR. STOFFELMAYR: Objection to the form. Go 13
- 14 ahead.
- 15 BY THE WITNESS:
- 16 A. I was not told one way or another as

- 18 BY MR. MOUGEY:
- 19 Q. Did you ask someone, "Are we performing
- 20 due diligence on our suspicious orders"?
- 21 A. No, I did not.
- 22 Q. Did you go seek out any opinion from
- 23 anyone out of the compliance department whether
- 24 that would be wise?

- Page 212
- A. I did not.
- Q. So, you're now directly in charge of the pharmaceutical department in late 2012, correct?
- A. Correct.
- Q. Early 2013 we're building out the
- 6 suspicious order monitoring policies and procedures 7
 - through Pharmaceutical Integrity, correct?
 - A. Correct.
 - Q. Did you go ask anybody at any point in
- 10 time, "How do I effectively build out the due 11 diligence component or requirement of our
 - suspicious order monitoring responsibilities"?
- 13 A. Certainly, but it wasn't retrospective.
- 14 It was prospective. I wasn't concerned as much
- 15 with what had been occurring. What I was concerned 16 with is what were we going to do moving forward.
- 17 Q. So, here we have this organization with
- 18 a couple of hundred thousand employees and you
- 19 didn't decide am I going to pave a new road or use
- 20 the road that we've already paved before for due
- 21 diligence?
 - MR. STOFFELMAYR: Objection to the form.
- 23 BY MR. MOUGEY:
- 24 Q. Your -- go ahead.

Page 213

- A. The objective that we had was what are
- 2 we going to do moving forward. It wasn't -- it
- 3 wasn't a -- there wasn't -- the concern was not
- 4 about so much as what the current process was or
- 5 what had occurred. It was about what are we going
- 6 to do moving forward.
- 7 Q. Mr. Swords, your CV touts, in more than 8 one instance, your ability to effectively implement
- 9 cost-saving measures at Walgreens, correct?
 - A. Yes.

- Q. You touted in your resume on more than 12 one occasion your ability to create processes and
- procedures efficiently to improve the profitability 13 14
 - of Walgreens, correct, sir?
 - A. Yes.
- Q. And, sir, it's your testimony to this 16
- 17 jury today that with all of your experience in
- developing efficient procedures, you never asked 18
- 19 anyone at Walgreens what system was in place prior
- 20 to the creation of Pharmaceutical Integrity on
- 21 performing due diligence on suspicious order?
- 22 A. That's correct. I never discussed due 23 diligence. What I understood was the process we
- 24 had was reporting of the suspicious orders to the

Sue Thoss was a divisional vice president in our supply and distribution, supply chain and distribution. Q. Which is the division that you believed was responsible for implementing Walgreens' suspicious order monitoring policy prior to Pharmaceutical Integrity, correct? A. Correct. Q. So, Sue Thoss should kind of know something about suspicious order monitoring 	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	supply chain. Supply chain group is responsible for overseeing Walgreens' suspicious order monitoring policies and procedures, according to your testimony today, prior to Pharmaceutical Integrity, correct? A. That's correct. Q. Thank you. So, Ms. Thoss e-mails a series of folks here, and let's go through them. Just walk me through on the bottom of this e-mail, Bates No. 478001, who all these folks are. Who is Joseph Tiemeyer? A. I have no idea. Q. Lynn Guyot? A. I have no idea. Q. You don't have any idea who all those people are on that e-mail chain?

- 4 anything other than those generalities under what's 5 included under recent trends?
 - A. That's generally what the Pharmaceutical Integrity would -- those are some of the components they would have been looking at, probably not all of them. I don't know what all of them are.
- 10 Q. Okay. So, the next thing, you said 11 volume, peer groups. What did you mean by that?

- O. So, once an outlier was identified in Pharmaceutical Integrity, an outlier order, then what happened?
- 4 A. The Pharmaceutical Integrity group would 5 have contacted -- first thing is the order would б have been stopped or reduced and the -- with the 7 ceiling limit applied or whatever needed to happen 8 at that point, and then typically the Pharmaceutical Integrity company would reach out to 9 10
 - the store to find out what's driving that, probably engage their local leadership, too, for more information about what's going on at a particular store.
 - So, for example, if the store appears high, is it a store that just converted to 24 hours and so now they have more demand because they are servicing emergency rooms around the area, is it a store where the clinic just opened up across the street that's an oncology clinic and dispensing habits change occasionally and sometimes that leads to things looking odd that aren't really odd.
 - Q. All right. Let's go back to the stopped or reduced I think is what you said, right?
 - A. Um-hmm.

Page 291

- Q. But you don't -- you don't have any understanding, despite 2012 to 2016 being in your purview, what order was identified as an outlier, what the parameters were?
 - A. Well, I gave you some of the criteria that we would have looked at. I don't have a list of every criteria that we would have looked at.
 - Q. I'm sorry. Maybe I'm again still in the slow category.

Tell me what specific components you gave me to identify outliers.

- A. Outliers orders?

 - A. High volume, are they the exception to the trade area, so what do other Walgreens stores,
- 16 has there been a recent increase in the volume.
- 17 So, not only a look-back of a longer term, but
- 18 what's happened in the last three, four, five weeks
- 19 at the store. So, what's shifting around.
- 20 Q. Did you use any of the other IMS or 21 vendor data collection services as part of your 22 suspicious order monitoring?
- 23 A. No. That would have been more around 24 dispensing.

Page 293

- 1 Q. So, an outlier order is flagged and it's 2 stopped or reduced and then it's reported to the 3 DEA?
 - A. It is -- it is sent to the wholesaler. So, we're the intermediary before the wholesaler gets the item.
 - Q. Okay. But when you say "the wholesaler," you mean another vendor like a Cardinal or ANDA?
 - A. Yes.
 - Q. Okay. Right now I'm talking about Walgreens' role as a distributor, right, because that's -- we're not talking about Walgreens as a dispenser. We're talking about Walgreens as a distributor, right? Suspicious order monitoring policy. Walgreens is a distributor. Does that make sense?
 - A. Well, I'm sorry. I thought you were talking about while we were in Pharmaceutical Integrity time frame, and basically we're out of the dispensing opportunities by that time. We've transitioned it to Cardinal.
 - You mean --
- 24 And they are applying their own set of

- 3 Q. 2012, you were asked to run
- 4 Pharmaceutical Integrity to the end of 2014.
- 5 You're still running Pharmaceutical Integrity and
- 6 Walgreens is still acting as a distributor for
- 7 opiates, correct?
- 8 A. At select distribution centers, that may 9 be true. I don't know what time frame the DCs
- 10 rolled off, but --
- 11 Q. But you were still distributing late 12 into 2014?
- A. If that's the date you have. I don't 13 14 have a date.
- 15 Q. That's the time period. We're talking 16 about Walgreens as a distributor.
- 17 A. Okay.
- 18 Q. Okay. So, let's go back to stopped or 19 reduced. All right.
- 20 So, stopped or reduced, orders
- 21 identified as an outlier, is that order reported to
- 22 the DEA?
- 23 A. Yes.
- 24 Q. And because if it wasn't sending the

Page 296

- A. I don't know the particular mechanics.
- 2 What would happen here is with the Pharmaceutical 3
 - Integrity group, what would occur, we were looking at orders of interest.

So, an order would come in. They've got their algorithm that Ed Bratton and a bunch of other smart guys figured out. That goes against the algorithm. They look at the other factors, what we have been talking about.

And, so, is that -- does that turn into a suspicious order or is there -- that order of interest now has a reasonable explanation for what's happening. Then that would get transmitted for the order fulfillment.

Q. Okay. So, let's go back to my initial question. Order comes in and it's identified as an outlier from the formula. Are we on the same page?

Page 297

- 18 A. Okay.
- 19 Q. And Walgreens' practice in 20 Pharmaceutical Integrity was to reduce that order, 21 correct?
 - A. On certain orders, yes.
- 23 Q. Well, if it was flagged as an outlier,
- it was reduced, correct? 2.4

- 2 its responsibilities, correct?
- 3 MR. STOFFELMAYR: Objection to the form.
- 4 BY THE WITNESS:
- 5 A. We have an obligation to report to the
- 6 DEA.
- 7 BY MR. MOUGEY:
- 8 Q. So, the order comes in. It's halted,
- 9 reduced and reported. Do I have that sequence 10 right?
- MR. STOFFELMAYR: Objection to the form. 11
- 12 BY THE WITNESS:
- A. Yes. 13
- BY MR. MOUGEY: 14
- 15 Q. All right. When I say "reported," I
- mean reported to the DEA is your understanding, 16
- 17 correct?
- A. If we couldn't resolve the issue, yes. 18
- 19 Q. All right. So, you just added another
- 20 piece into there. So, let me go back and make sure
- 21 I understand.
- 22 So, stopped or reduced and the order
- 23 that's reduced is then sent to the DEA, correct,
- 24 sir?

- A. Or canceled.
- 2 Q. And if it was reduced or canceled as an 3 outlier, was that order reported to the DEA as 4 suspicious? 5
 - A. That's my understanding.
- 6 Q. Okay. And at that point the
- 7 Pharmaceutical Integrity would look to see if there
- 8 was any reasons why it had popped on the outlier
- 9 report like you mentioned, whether there was a
- 10 24-hour emergency -- 24-hour store with an
- 11 emergency room nearby, things of that nature?
- 12
 - A. Correct.
 - Q. Is that your testimony? Okay.

14 So, now, when is the override form

- 15 implemented, according to your testimony?
 - A. For the store --
 - Q. Yes.
- A. -- to implement it? 18

19 When we would block the order and we

- 20 would notify the store that the order has been
- 21 canceled or blocked and they can -- they can
- 22 leverage the CSO override form to submit the 23 documentation of what's -- what's occurred.
- 24 Q. And if that was approved, a new order

So, were you aware from August of '09 to September of '10 that Walgreens' suspicious order monitoring system only reviewed Walgreens' distribution centers? A. Well, all orders came via that process. There is no way for the store to go directly to the wholesaler. They don't have 222s at their store to go anywhere but WAG DCs. Q. Yes, sir, but what I'm asking you is outside of the WAG suspicious order monitoring process. Okay. So, you see the title of the chart, "Ongoing Controlled Drug Order Review Logic," correct? A. Yes.  took over?
 - A. Certainly I wanted -- my job as I saw it was to improve the process and close whatever gaps that may exist to make it a more -- more robust process.
 - Q. Did any of your team members have -- and I'm saying team in the Pharmaceutical Integrity Department. I realize you had more areas under your auspices than that.

But did any of the team members in Pharmaceutical Integrity have backgrounds in compliance?

A. Not that I'm aware of.

- Q. It was a combination of people that had pharmaceutical backgrounds, technical backgrounds and some loss prevention. Is that fair?
- A. Pharmacy backgrounds, what I would call people that were strong with data and analytics and loss prevention. That would generally surmise who they were.
- Q. So -- this is my word. You tell me if it's wrong.

Page 356

- Q. And there was -- I forget the exact title, but there were also four spots in the org chart underneath the business analysts initially that weren't filled, is that?
 - A. There was -- we did a high-level sketch when we first started out as what we thought it might look like, yes.
 - Q. So, Tasha, four business analysts and four managers, so approximately eight people, give or take. Does that sound about right?
 - A. Yeah.
- Q. Made a fairly significant dent in a matter of months on the amount of scheduled narcotics, opiates that went from Walgreens across the country. Fair?
 - A. Well, I think we certainly stood up a number of policies and processes and tools that impacted the dispensing of opioids across the country, yes.
 - Q. And that was just in a matter of months?
- A. Six, eight months, nine months, 22 something like that.
 - Q. Did you ever get to the point where you were, after you saw what the impact in the opiate

Tasha Polster and an administrative assistant was part of the team, right?

- A. I'm not following you.
- Q. I'm going to walk through them. I am
 looking through the org chart in my head. Bear

You have got Tasha Polster, right?

- 15 A. Um-hmm.

I was frustrated with the DEA's interaction with us. I was frustrated with what some pharmacists would do on this. I was frustrated with -- there was -- it's a -- it's a significant issue.
